SURFACE PROTECTION

CRAFT FELT

Adhesive-Backed "Peel & Stick" Felt Pads

These adhesive-backed felt pads and strips reduce noise and protect desks, tables, counter-tops and walls. They also serve as noise cushions for doors, drawers and glass. Just peel and stick. Custom sizes available upon request.

Typical applications include: lamps, picture frames, mirrors, trophies, appliances, electronics, speakers, computer components, office, medical and fitness equipment, hobbies and crafts, displays, automotive and boating applications.

For FLOOR PROTECTION, the 1/8" thick polyester blend brown or beige felt pads (see floor protection section) offer the best durability for use with tables, chairs and heavy furniture. We also offer peel and stick teflon sliders for these applications.

The felt nail glides, threaded felt glides or IEC's teflon sliders are best for tile floors since the adhesive backed felt pads can get knocked off. For sled based tubular leg chairs, the hexagon shaped "felt wrap" will adhere to the rod or tubing. We also offer plastic "snap-on" sled glides, with or without felt strips.
