

**Adhesive-Backed, Nail-In and Slip-On Sliders**

IEC's *sliders* are designed to help move large furniture and equipment, protect carpets from snags, protect floors and decks from scratches and rust stains, reduce table wobble, dampen vibration, and keep furniture joints from loosening when being moved into position. Offered in round, square (-SQ), rectangle (-RE) and triangular (-TR) shapes.

Typical applications include patio furniture, bookcases, chests of drawers, entertainment centers, file cabinets, refrigerators, stoves, washing machines, sofas, beds, tables, chairs, desks, bar stools, appliances, exercise equipment, office partitions, etc.

When using *sliders* on wood floors, the floor should be clean and free from grit or scratching may occur. Sliders are not recommended on newly refinished wood floors for at least 30 days after refinishing.

The *solid peel and stick sliders* are essentially "nail-less" sliders. Nail-in sliders are designed for wooden legs and are ideal for more rugged applications.

These *PTFE Nail Glides* (similar to Teflon®) have a gray base with a black rubber top cushion.

IEC's *slip-on sliders* are designed to fit over round or square chair legs and existing glide feet.

The brown *slip-on sliders* have a black base and the grey *slip-on sliders* have an off-white base. Also available with felt base. (See Slip-on felt section).

**NON-PADDED (SOLID) PEEL & STICK SLIDERS**

P/N	Dia.	Thick.	Color	Pkg	1-9	10-24

**Adhesive-Backed  
 Regular-Duty Sliders**

IEC's *regular-duty sliders* are designed to help move large furniture and equipment, protect carpets from snags, protect floors and decks from scratches and rust stains, reduce table wobble, dampen vibration, and keep furniture joints from loosening when being moved into position. Offered in round, square (-SQ), rectangle (-RE) and triangular (-TR) shapes.

The *regular-duty sliders* have a rigid felt peel and stick cushion inside the base which can adhere to legs that may be larger than the polymer base. For rugged duty applications. See IEC's commercial duty sliders on page 16 of this catalog.

Typical applications include patio furniture, bookcases, chests of drawers, entertainment centers, file cabinets, refrigerators, stoves, washing machines, sofas, beds, tables, chairs, desks, bar stools, appliances, exercise equipment, office partitions, etc.

When using *sliders* on wood floors, the floor should be clean and free from grit or scratching may occur. Sliders are not recommended on newly refinished wood floors for at least 30 days after refinishing.

**Adhesive-Backed Commercial-Duty Sliders**

IEC's *commercial duty sliders* are designed to help move large furniture and equipment, protect carpets from snags, protect floors and decks from scratches and rust stains, reduce table wobble, dampen vibration, and keep furniture joints from loosening when being moved into position. Offered in round, square (-SQ), rectangle (-RE) and triangular (-TR) shapes.

The *commercial-duty sliders* have a thicker polymer base and a foam (not felt) peel and stick cushion which allows the leg to sit deeper inside the polymer base.

Typical applications include patio furniture, bookcases, chests of drawers, entertainment centers, file cabinets, refrigerators, stoves, washing machines, sofas, beds, tables, chairs, desks, bar stools, appliances, exercise equipment, office partitions, etc.

When using *sliders* on wood floors, the floor should be clean and free from grit or scratching may occur. Sliders are not recommended on newly refinished wood floors for at least 30 days after refinishing.
